Upon completion of this initial program, optional coaching, upon agreement by Coach and Client, is available on a monthly basis. Subsequent monthly fees are \$2400 for scheduled coaching. An average of 4 weeks per month is used in calculating the monthly fee. Specially scheduled sessions, beyond scheduled weekly sessions, will be at a rate of \$650/hr.

Services

This coaching program is designed to be delivered over a four week period, over Skype or, if necessary, over the phone, and will include email support. Included are three one-on-one live sessions. The first session will be 2-hours and there will be one 30-minute session around day 7 and one 30-minute session around day 21. Each day the client will send in email check-ins with regard to how they are following the trading plan, of which the format will be designed in the first session by the coach and client.

Coaching, which is not advice, therapy or counseling, may address specific personal projects, business issues, or general conditions in the Client's life or profession. Other coaching services may include value clarification, brainstorming, identifying plans of action, examining modes of operation in life, asking clarifying questions, and making empowering requests. This program includes consulting relative to stock, futures and options markets, goal setting, trading methodology, risk management, technical analysis techniques, systems and trading environments.

Long-term trading success is dependent on many variables. An assessment will be made by the Coach and Client of the progress made during the 3-week program to determine the benefit and design of additional coaching.
